SHAPE OF THE PROGRAMME

Gaining a children's ministry qualification is often an important indicator of your passion, commitment, experience and professionalism.

CRC offers the Diploma in Children's Ministry for those currently working with, or planning to work with children especially within the church setting.

This Children's Ministry course is for Christian children's workers and those who wish to work with children and their families from a Christian value-base. It uses interactive training days and distance learning materials, to enable learning about children's ministry and deepen understanding whilst developing skills. The course seeks to provide a practical and theological lens on the core skills in the formation of children's workers. It is aimed at those who may be young leaders, volunteers or group leaders. Whilst it is focusing on a Christian context, this is not limited to Sunday morning models. This course will increase confidence, credibility and creativity; and is delivered in a **user-friendly** manner.

- Learn about holistic human developmental stages
- Become responsible and inclusive in your practice
- Understand biblical and societal models of children in community
- Be aware of spirituality and the impact of play
